

How to connect to “MFUconnect” for Andriod

1. Go to Settings >> Wi-Fi >> Turn on Wi-Fi, then select **MFUconnect**

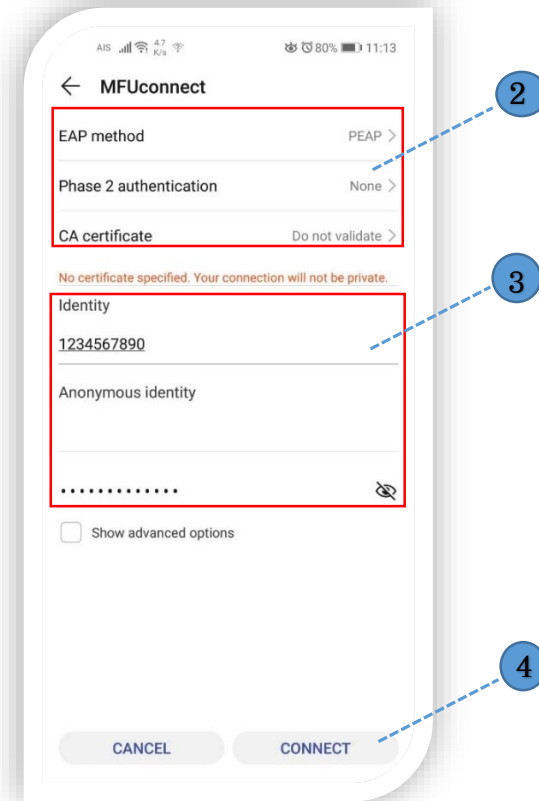

2. Set the profile as follows

-  EAP method choose “**PEAP**”
-  Phase 2 authentication choose “**None**”
-  CA certificate choose “**Do not validate**”

3. Fill the **MFU Account** in the **identity** and **password**

-  Identity : **Student ID/ Staff ID**
-  Password : **Notify password via email**

4. Click “**Connect**”

 Anonymous Identity : **Do not fill out**

After **MFUconnect** connection is successful, the device will remember the connection. Next time, in the signal area, the device will connect to the signal automatically.
