

How to connect to “MFUconnect” for macOS

1. Turn on the Wi-Fi signal, then select **MFUconnect**

2. Fill the **MFU Account** in the **Username** and **Password**

- Username** : Student ID/ Staff ID
- Password** : Notify password via email

3. Click “Join”

4. The Certificate window will appear, click “Continue”

After **MFUconnect** connection is successful, the device will remember the connection. Next time, in the signal area, the device will connect to the signal automatically.
